I am a 24-years-old System Engineering student and Full Stack Developer graduated from Henry with experience in developing web applications using technologies such as React, Node.js, and PostgreSQL. I am passionate about learning and challenging myself to push my limits and achieve increasingly ambitious goals. I am looking for opportunities to keep growing and contribute my experience and skills to challenging projects.

WORK EXPERIENCE (ACADEMIC)

 - GitHub
-

SOFT SKILLS

- Fast learner: I have a passion for learning new things and am able to quickly absorb and apply new information.
 - Self-taught: I enjoy taking initiative and teaching myself new skills, which has helped me become a versatile and adaptable problem-solver.
 - Dedicated: I am committed to achieving my goals and take pride in delivering high-quality work that meets or exceeds expectations.
 - Optimistic: I maintain a positive attitude even in challenging situations, which helps me stay motivated and focused on finding solutions.
 - Adaptable: I am able to work effectively in different environments and with people from diverse backgrounds, and can easily adjust to changes in project requirements or team dynamics.
 - Responsible: I take ownership of my work and am accountable for meeting deadlines, communicating clearly, and delivering results that align with project goals.
 - Team player: I value collaboration and enjoy working with others to achieve shared objectives, contributing my skills and expertise to help the team succeed.
